ABOUT US.

Â Â Harvest of the Nations was founded by Ella Onakoya. She came to know Jesus as her Lord and Savior at 15 years of age. From childhood to her teenage years, she was physically and emotionally bullied by other kids at school but became supernaturally delivered by Jesus from depression on the same day she invited Jesus into her heart to be her Lord and savior. From that young age she had felt called to minister the saving power of Jesus and His love to all she meets. She is now an author, an Evangelist and a Prophetic revivalist who has been travelling for several years to minister both in England where she lives and internationally. Ella carries a heart for revival and awakening as she ministers prophetically in various churches where she is invited to speak. Salvations, Signs and wonders with miracles follows her ministry as she travels to speak at conferences, crusades, church revival meetings and equipping schools. Various moves of God have happened where she had ministered in the nations. It is her vision to see the mandate of Jesus fulfilled in every nation, in every life.
