I highly recommend Sister Ella to any church or fellowship that is hungry for more of God and for revival. She's a highly anointed prophetic preacher and evangelist that comes out of a Spirit of prayer. She will challenge God's people to a deeper walk and she will be sensitive to the needs of God's people as she ministers. She has ministered at our church numerous times and has been a blessing. Sister Ella has motivated and challenged us to walk in God's authority to do the greater works of Jesus. There has always been several touched and healed at these meetings.
